## Version 2020.1 HotFix 2 - Release Notes

GoldMine Premium 2020.1.2 / GoldMine Connect 2020.1.2  
Updated March 2021

### What's Changed in GoldMine Version 2020.1 HotFix 2

GoldMine Premium 2020.1.2 / GoldMine Connect 2020.1.2

- GoldMine Plus for Microsoft Office was upgraded to Microsoft .NET Framework 4
- Starting with this version, the ability to create, edit, rename and delete WebImport profiles has been removed.

### What's Fixed in GoldMine Version 2020.1 HotFix 2

GoldMine Premium 2020.1.2 / GoldMine Connect 2020.1.2

68665	Modifying or Repairing GoldMine will change the DBALIAS.INI so that a certificate is expected (TRUSTSELSIGNEDCERTIFICATES=yes will be changed to no)
70280	GoldMine Plus for Microsoft Word will not be installed or cannot be activated on some systems due to the main registry keys missing
70981	GoldMine Plus for Microsoft Outlook - GoldMine Addressbook will be added but will not display
72463	When a received email contains the HTML tag ContentEditable=false, the reply or forward cannot be edited. Happens for ConnectWise and BlackBerry emails
72943	"PDA Table was not initialized" error when Goldmine tries to sync with Outlook using the Outlook Link when Outlook is not yet opened
73384	Some inbound emails cause Goldmine to crash.
73827	Misleading and wrong functionality with the new Additional Contact's feature >> Delete of one row, deletes more than expected, right click send does take wrong email address etc.
73830	Transferset hanging when synchronizing the Mailbox
74421	In Email threads, part of the emails are received with strike-through text, the original sent email does not show strike-through parts.
74740	Purging GoldMine Files Logs/Contact Files Logs will crash GoldMine
75171	Only one note is displayed on the Case Details system report but for each note a separate entry pending and histories added into the pending/history section
75172	Notes are displayed on the Case Details system report with HTML tags instead of only text and also only one note is displayed
75453	Cannot add any customized details in GoldMine Web when there is a H rectype record with more than 2 Field customizations in the CONTSUPP for the detail definition
75454	Abnormal program termination when downloading a Constant contact campaign after a restart of GoldMine 2 times in a row (Date Sent field gets blanked out)
76681	When it is necessary to browse to the LicenseGM95.bin when starting GoldMine on a client >> File type is wrong(e.g LicenseGM94.bin)
77228	Replying to emails using the original message converts upper case to lower case - also apostrophes and special chars are destroyed (' , £, € etc)
